

Christopher Knowles often uses alarm clocks in his work. He even has a collection of alarm clocks.

Design your own alarm clock in the space below. Think about line, texture, and color. What time is it on your alarm clock? Where is your alarm clock?

Can you find the installation *The Sundance Kid is Beautiful with Christopher Knowles*?

This is a universe that the artist created for himself.

If you were to create your ideal universe, what would it look like?

- Think about the colors.
- What is on the walls?
- What is on the ceiling?
- Who is welcomed in this space?
- What objects live in the room?
