

1. Discover

Find different places inside and outside your home where you can safely hear your surroundings.

2. Listen Inside

Stand in the first place of your choice inside your home and listen for any of the following sounds:

- someone walking
- someone talking
- someone writing or drawing
- a door opening or closing
- music
- water running
- the wind through a window

Move to a new place in your home. What can you hear now? Make a list of found sounds you remember hearing inside in the past to add to this list.

3. Listen Outside

Stand in the first place of your choice outside your home and listen for any of the following sounds:

- cars
- birds
- planes
- train or light rail
- the wind through tree branches
- construction

Move to a new place outside your home. What can you hear now? Make a list of sounds you remember hearing outside in the past to add to this list.

4. Bonus Round

Take a picture of what is making the sound you find and share your images.

Share your favorite part of your hunt for sounds with us using #MuseumFromHome #ConnectWithCAMH | @camhouston

Scavenger Hunt for Found Sounds

Inspired by DJ Screw and his influence on Houston's music and culture, explore the sounds surrounding you to complete a scavenger hunt of sounds.
