

Look closely at Steven Evans's neon artworks.
Can you follow the continuous line created by the
neon light?

Create a continuous line drawing that you would choose
to light up the gallery.

*Steven Evans: If I can't dance,
it's not my revolution!*

Neon lighting

Neon lighting consists of brightly glowing, electrified glass tubes or bulbs that contain rarefied neon or other gases. Light is produced when neon atoms gain enough energy to become excited. When an atom returns to a lower energy state it releases a photon or light.

ART GUIDE

Artist Steven Evans uses song titles in his work. He fabricates pieces made of colored neon and also creates lists with latex paint and adhesive vinyl.

What is your essential playlist?

Create a list of your current favorite songs.
