

Stonewall 50 | Arts and Culture Community Calendar

As Houston celebrates and commemorates the 1969 Stonewall Riots—which took place in New York City and launched the modern LGBTQ+ movement, transforming communities across the country and the world—the city’s creative community is marking this historic anniversary with a season of informative programs, exhibits, film screenings, and performances. This calendar is your guide to many of these events taking place across Houston’s arts and culture community.
